## CARING FOR YOUR SADDLE

A warranty is only guaranteed if your saddle is used properly, preserved, and maintained. Leather is a natural product and reacts to environmental influences. Keep your saddle in a dry, cool and dark room and store it on a suitable saddle rack. The tack room should be separated from the barn. Clean your saddle regularly from dirt and other residue with a damp cloth and mild saddle soap. To preserve the high-quality vegetable tanned leather in substance and quality, oil the leather of your saddle once or twice a year sparingly after cleaning. When oiling or conditioning your saddle, please note that the rough leather underside absorbs much more oil than the smooth leather side. The underside is therefore only to be treated sparingly. Bright natural-coloured saddles will darken when oil is applied! For leather care in between rides use a high-quality leather grease (especially for tanned vegetable leather), which has an impregnating effect. All fats/greases/oils are to be used sparingly; otherwise, the leather will lose its tension and stability.

## MATTES PRODUCTS

Any Mattes products sold on this website are considered custom made products and for all products in customer selected colour combinations, are therefore excluded from returns. This limitation does not apply to quality issues. Condition for the processing of claims is the presentation of a sales receipt. Any return shipment will strictly only be accepted after prior approval.

## IMPORTANT INFORMATION ABOUT BRIGHTLY COLOURED AND DARK COLOURED SHEEPSKIN

There is a possibility of dye bleeding from dark or bright coloured skin onto light coloured quilt. A slight staining is possible from dark or bright coloured wool onto the hair of grey horses. Fading of the wool surface is also possible. This is due to the composition of the horses sweat, which can be different from horse to horse. The same applies to dark and bright dyes on saddle leathers.

## GHOST SADDLES WARRANTY

Your new GHOST saddle is protected under a 2-year Warranty. This Warranty protects clients against all manufacturing faults. A discovery of a manufacturing fault by client or their dealer will result in 1) a repair or 2) replacement of your purchase. The action on the fault- to repair or replace- is a choice reserved solely to the discretion and expertise of the manufacturer, not with the client. The decision to repair or replace is based on the specific nature of the manufacturing fault after careful study and empirical evidentiary support.

#### GHOST SADDLES - A NOTE ABOUT LEATHER

Leather is an organic product. Colours, textures and patterns of the leather you select may vary saddle to saddle. The leather may show signs of the animal it came from, scratches, bruises, scars. The colour dying process may produce varying results. Fresh cuts or scratches from transport should be reported directly to your dealer. Your leather will show signs of use from the moment you start using it, this is normal behaviour for leather. Abnormal thinning or rapid discolouration should be reported to your dealer.
